**Subject:** SENTATE BILL 1090

Hello, I live in Danbury CT. I am very concerned about this law - which if passed, would increase the number of casinos in CT. Instead of passing this Bill, I believe that every effort should be made by state legislators to IMPROVE AND ASSIST the existing casinos in CT, as well as increase and expand the number of tourists to casinos in Connecticut perhaps by offering attractive travel packages?

I don't see any long term advantages for CT residents should this Bill pass; only an increase in gambling addictions.

Thank you very much.
